Parents and Staff,

Littlefield ISD Administration has been notified that a Primary School staff member and 6 students simultaneously had direct exposure to an individual who recently tested positive for COVID-19. Although they have experienced no symptoms, these individuals are currently self-quarantining at home.

LISD is continuing to deeply sanitize, and all District employees and students are instructed to continue to follow CDC guidelines and recommendations and to practice social distancing.

Based on the information that we have gathered, it has been determined that the end of the 14-day incubation period for anyone possibly exposed is September 14.

Out of an abundance of caution, we advise you to monitor your health, follow the [CDC guidelines for people who have had close contact](#) and contact your primary care physician if you develop symptoms.

LISD Administration is continuing to monitor this situation and will provide additional information as needed.

Sincerely,

Robert Dillard
Superintendent of Schools
